- ▶ Prints on a wide range of stocks
- ▶ Anti-static
- ▶ Deep, dark barcodes, text and graphics
- ▶ Features Clean Start Printhead Cleaner for easy, convenient printer maintenance

Stocks: Coated paper, Uncoated paper, Polypropylene, Polyethylene, vellum, Tyvek®

WHO IS IIMAK

IIMAK is a leading manufacturer of thermal transfer ribbon (TTR) headquartered in New York. TTR is used for printing variable information on labels and tags throughout the supply chain, primarily in the manufacturing, distribution, food packaging, and healthcare industries.

Over the last 20 years IIMAK has expanded from its U.S. base into Europe and South America. It is now introducing its high-quality finished roll products to Asia. Customized for the Chinese marketplace, IIMAK's complete product line is exclusively available through Kurz Stamping Technology (Hefei) Co. Ltd. (A member of the KURZ Group - global market leader in the field of hot-stamping technology). Based in China's Eastern Region, Kurz Stamping Technology (Hefei) Co. Ltd. has the expertise and logistical support necessary to satisfy the high standards of Chinese manufacturers and distribution centers.

In this partnership, IIMAK can provide you with all of your automatic identification requirements.
